

Gentlemen - As a small business supporter, I wish to request that we do not remove the FCC controls regulating independent ISP's. The independent that I have been associated with for more than 10 years, provides superior service that it is possible for a Large Phone Company because they have more personalized service. The owner of my ISP took a half day of his time to help me interview a HTML Developer to ensure I made the right decision.

I think it is very important that the FCC continue to regulate Broadband and protect the independent small business ISP's.

Thank You.
